Professional Summary

I am currently an intern at the Superintendence of the Federal Highway Police, where I contribute to the construction of a database for the PRF Health Unit in Santa Catarina. My role includes organizing and maintaining data, developing and modifying spreadsheets and dashboards, and assisting in computer maintenance. This experience has allowed me to refine my technical skills while gaining strategic insight into data management, teamwork, and communication.

Additionally, I participated in a volunteer project as a Web Developer, where I contributed to building the website for my church. I helped develop features, maintain the codebase, and collaborate with the team to ensure the website met the community's needs. This project strengthened my version control skills with Git and reinforced best coding practices, teamwork, and effective communication.

I am seeking an opportunity in the tech industry to deepen my expertise in software development and contribute to innovative solutions.

About Me

Hi, I'm Isaque.

I am a Computer Engineering and Software Engineering student with a strong programming foundation and hands-on experience in real-world projects. Through DNC, I worked on industry-related projects, gaining practical knowledge in software development and data science.

I am fluent in English and highly motivated to grow in the tech industry.

I am passionate about technology and always eager to learn, improve, and contribute to impactful projects.

Education

- Computer Engineering – (5th semester)
- Software Engineering – (4th semester)
- Data Science Program – DNC (Completed in 2024)
- Software Engineering Program – DNC (Ongoing)

Technical Skills

BackEnd Development: Python | SQL | Java | NodeJS | NestJS
FrontEnd Development: React | JavaScript | HTML | CSS | Spring Boot
Data: MySQL | Power BI | Power Query
Development Tools: Git

Languages

- **Portuguese –** Native
- **English –** C2 (Fluent)

Professional Experience

IT Intern

Superintendence of the Federal Highway Police – 2024 - Present

- Contributing to the construction of a database for the PRF Health Unit in Santa Catarina

- Developing and modifying spreadsheets and dashboards

- Assisting in computer maintenance

- Enhancing technical skills in data management, teamwork, and communication

Web Developer (Volunteer Project)

Church Website Development – 2024

- Assisted in developing features and maintaining the website

- Used Git for version control, improving versioning and branch management skills

- Followed best coding practices, ensuring clean documentation and structured projects

- Worked collaboratively with a team, aligning expectations and enhancing communication

- Strengthened both technical and teamwork skills throughout the project

Academic Projects

Java Tool Loan Management System

2024

- Developed an academic project in Java to manage tool loans

- Integrated the system with an SQL database for efficient data storage and retrieval

- Gained hands-on experience in system development, programming logic, and database management

- Used Git for version control and collaborated with peers to refine the system

- Strengthened problem-solving skills and teamwork through project execution
